

PIC Takes Control of the Polypropylene Plant Operations in Kuwait

The Petrochemical Industries Company (PIC) announced the start of taking over the operations of the Kuwait-based wholly-owned polypropylene plant, which was operated by "EQUATE", where in the first hour of the new year 2020, the safe operation of the plant along with its full production capacity was transitioned according to the approved schedules of the operational transition plan, in a unique experience that signifies a new achievement for the two companies.
