

Signing of a Contract for Supplying Labor to Polypropylene Plants

In the presence of the PIC's CEO, Mr. Mutlaq Rashed Al-Azmi, and the DCEO for Manufacturing and Marketing, Mr. Hamad Al-Subaie, PIC signed a contract with “Mark Technologies” on November 5, 2019 to supply labor required to operate polypropylene plants.

It is worth noting that the decision to operate the polypropylene plant was approved on December 6, 2018. It is expected that the plant will start its production operations by 2020. PIC is committed to maintaining the efficient operation and implementing the highest standards of HSE, while reducing costs.
